

WOVEN RUBBLE SACKS

Product Code	Pricing Unit	Colour	Size	Pack Quantity	Pallet Quantity
HP1	EACH	White	450mm X 600mm	100	10000
HP3	EACH	White	600mm X 1000mm	100	10000

Product Description:

Proguard Woven Rubble Sacks are made from highly tear and puncture resistant woven polypropylene. Strong and durable, these heavy duty woven rubble sacks are suitable for storing or disposing of rubble, broken tiles, sharp fabricated products and engineered parts.

Proguard woven rubble bags are reusable and available in a range of sizes.

Woven rubble bags are also known as woven sacks, PP sacks and poly-prop bags.

Benefits:

- Highly tear and puncture resistant.
- Made from woven polypropylene.
- Suitable for disposing of sharp materials such as broken tiles and glass.
- Can be printed with your company logo (minimum quantities apply).

Limitations:

- Not 100% waterproof – if this is required we recommend our *Proguard Polythene Rubble Sacks*.

Application:

Simply open a woven rubble sack and fill. The end can be tied into a knot or sealed with a cable tie. These bags can be reused numerous times.
