

PROGUARD ADHESIVE BASE STICK PINS

Product Code	Pricing Unit	Colour	Dimensions	Pack Quantity	Pallet Quantity
PPDABSP62	BOX 500	-	62MM	1	10

Product Description:

Proguard Adhesive Base Stick Pins are used to attach Correx sheeting to windows and other vertical surfaces.

Benefits:

- Provides efficient mechanical attachment to vertical surfaces.
- Strong and easy to use
- 100% Recyclable.

Limitations:

- Must be stuck to a layer of Proguard low tack PVC tape or Proguard Window tape to avoid leaving residue.
- The sharp end of the pin must be bent over itself to avoid the risk of impaling people.

Application:

Ensure surfaces onto which Proguard Adhesive Base Stick Pins are to be applied are clean, dust free and grease free. Apply a piece of removable tape where you want to put the stick pin. Peel the backing from the pin. Apply the pin to the tape. Push the Correx sheet over the pin. Add the locking washer. Bend over the remaining sharp end of the pin to avoid risk of injury.

Performance Data:

Material	Galvanised steel
Recyclability	100%
