

PROGUARD FR B1 HEAVY DUTY PROTECTION BOARD

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PBWHD14	Each	WHITE	2.4m x 1.2m	4mm	25	225

Product Description:

FR B1 Heavy Duty Protection Board is manufactured from high quality, 50% recycled polypropylene. It has been manufactured in 4mm thickness with an ultra-high density to provide protection for floors, walls and other flat surfaces from heavy knocks and abrasions on long term sites. It is ideal for use where delicate or high value surfaces need to be protected.

Flame Retardant Protection Board is similar to twinwall plastic sheeting and correx board, and is ideal for the same uses – i.e., protection for floors and other surfaces.

Benefits:

- Contains 50% recycled material.
- Flame retardant to DIN 4102-1:1998-05, B1 standard
- Ultra-high density provides protection against heavy impacts.
- 100% Recyclable.
- Provides efficient protection from knocks, scratches, and spills.
- Quick and easy to cut.
- Durable and reusable.
- 100% waterproof.
- Personalised logo and branding printing available.
- Resistant to chemicals.

Limitations:

- Product may become slippery when wet. Mop up any spills immediately or replace where necessary.

Application:

Ensure surfaces onto which Proguard Protection Board is to be laid are free from loose rubble. Beginning from the corner of the room lay the sheets side by side using Proguard Cloth Tape when joining the boards. Use Proguard Low Tack PVC tape when adhering to sensitive surfaces such as marble and glass. To ensure a completely residue-free removal we recommend using Proguard Ultra Low Tack tape. When laying on surfaces which scratch easily, we recommend underlaying the protection board with Proguard Protection Fleece.

Performance Data:

Density	4mm (1200gsm)
Rib Distance	3.2 – 3.5mm
