Product Description:

Proguard First Fix tapes are intended to improve communication on site by marking studwork with specific requirements. This improves productivity by increasing awareness, reducing mistakes, and reducing reworking.

Benefits:

- Economical but strong
- Self-adhesive
- Tear resistant.
- Easy communication aid
- Other variations available on request

Limitations:

- Non fire retardant.
- Not 100% waterproof – if submerged under water this tape may come loose.

Application:

Apply the appropriate tape to studwork where you need to communicate specific requirements. Cut to length with a knife or scissors.

Performance Data:

Adhesive	Water based adhesive
Weight	90g
Mesh	9 x 9
