

PROGUARD FOAM CORNER PROTECTOR

Product Code	Pricing Unit	Colour	Dimensions	Pack Quantity	Pallet Quantity
PEFL1	EACH	Blue	2m x 50mm x 50mm	10	500

Proguard Foam Corner Protectors are manufactured from a hard-wearing foam, and absorb impact (unlike rigid alternatives such as plastic and card).

The L-profile lengths can be used on any right angle corner which requires protection, including plasterboard corners and stair treads. This product can be left in place for the duration of the construction or refurbishment project.

Proguard Foam Edge Protectors are extremely hard wearing and can be reused numerous times making it a cost-effective and sustainable temporary door protection solution.

Benefits:

- Extra thick edge and corner protection.
- Lightweight and versatile.
- Simple to fit and remove.
- Can be cut to size with a knife.
- Reusable.
- Fits any 90° angle.

Limitations:

- Proguard Foam Edge Protectors are not fire-retardant.

Application:

Place the edge protector on the corner/edge which requires protection and cut to size if necessary. Secure with *Proguard Low Tack Tape* or *Proguard Ultra Low Tack Tape* depending on the sensitivity of the surface to which it is being fixed.

Performance Data:

Density	33kg/m ³
Tensile Strength	0.5N/mm ²
Elongation at Rupture	140%
Water Absorption	
24hr	1.35
28 days	< 3
Temperature Resistance	-30/+70
