PPOS1	PACK 100	Blue	Universal	10	200

Product Description:

Proguard Heavy Duty Overshoes are plastic shoe covers for protecting both footwear and flooring. The blue shoe covers are widely used in the construction industry to prevent dust and dirt being transferred to 'clean' areas. They are also suitable for hygienic purposes such as clean room and catering.

There are 100 individual shoe covers per pack and each one is elasticated to ensure that they stay in place.

Benefits:

- Universal size for all types of footwear.
- 100% waterproof.
- Effective and easy to use.
- Elasticated to ensure they stay in place.

Limitations:

- Product may become slippery when walking on wet floors. Mop up any spills immediately.
- Proguard shoe covers are disposable and not intended to be reused.

Application:

Simply slip the elasticated shoe cover over your shoes to protect the transfer of dirt from the shoes to the floor or vice versa.
