RP2	PACK 100	Black	18" X 29" X 39"	440	1	48

### Product Description:

Proguard Refuse Sacks are made from excellent quality recycled polythene. They are perfect for household waste requirements and also for use in the canteen on construction sites. Proguard Bin Liners are available in a range of thicknesses – the extra heavy duty refuse sack (product code: RP2) is suitable for bagging heavier waste such as timber and rubble.

Proguard refuse sacks come loose in boxes with the exception of product code: RR2 which comes in rolls of 10.

### Benefits:

- Manufactured from quality recycled polythene.
- Available in a range of grades.
- Available in rolls of 10.

### Application:

Simply open, fill and tie by hand or with a cable tie.
