

## STAIR TREAD PROTECTOR

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PEST1	Each	Brown	1000mm x 280mm*	2mm	15	750

\* 280 is the size of the top of the stair tread. In addition the tread protector folds 50mm up the back riser and 170mm down the front riser.

### Product Description:

Proguard Stair Tread Protectors can be installed quickly on any type of staircase providing effective temporary stair protection for vulnerable stair treads, stair nosing and risers.

The cardboard stair protectors are manufactured from solid, high-density card to provide an impact resistant protection for the stair tread. This method of staircase protection is cost-effective and easy to apply.

Proguard heavy duty stair protectors are pre slit for folding to create a right angle and can easily be cut to size with a knife. Lightweight and hardwearing, Proguard stair tread protectors can prevent damage to staircases during building, construction and refurbishment projects.

### Benefits:

- Provides cost effective protection for stair treads, stair nosing and risers.
- Slip and water resistant.
- Can be cut to size with a knife.
- Lightweight and versatile.

### Limitations:

- Non-fire retardant. Use our *Proguard Fire Retardant Stair Tread Protectors* when this is a requirement.
- This product may become soiled and require replacing. For a reusable, more durable product we recommend the *Proguard Rigid Stair Tread Protector*.
- We recommend this product is fixed in place with tape to ensure that

### Application:

Place the stair tread guard on the stair tread and crease along the pre-slit lines over the stair tread and up the riser. Fix using *Proguard Low Tack PVC Tape* or *Proguard Cloth Tape* depending on the sensitivity of the surface to which it is to be adhered to.
